**Sania Kroitor (SanYa)** - Violinist, Composer & Bandleader  
One of the most promising Israeli musicians -

"... *electrifying satanic technique ... both, revelling and mystifying music creation...*" - this is how SanYa's performance was characterized by the Israeli "Mezzo" channel.

Based on his original music, SanYa's performance is a combination of astonishing virtuosity, beautiful violin voice, compelling musical temperament and charismatic artistry.

Born in a family of musicians, SanYa has received classical musical education. Since early age, he was fascinated by a diversity of musical genres and traditions. That helped him to create his individual *new age* style which fuses together the contemporary, country and ethnic music, freedom of jazz and classical canons, spirit of Jewish, Arabic, Gypsy and Irish heritages.

At 37 years old, SanYa enjoys a widespread popularity in Israel. He performs with the best Israeli and world famous musicians, often appears on popular TV shows. Sania's violin is being heard in more than 200 recording albums. Recently SanYa released his second solo album 'RENEWAL' – which follows the success of his debut solo album 'ALL IN ONE'. Both albums include his original own compositions.

SanYa played many sold-out concerts in Israel and world wide, with phenomenal success, both for adult and teenagers public. During his tour in the USA Last June, he performed at the Metropolitan Museum, on Broadway, and at the Symphony Space Hall. His performances are not just musical concerts, but big shows full of passion, energy and breathtaking melodic passages.

This is a unique opportunity to discover a rich talent and a musician full of avant-garde ideas. His technique is extraordinary, his music bold and beautiful. SanYa creates his own virtuoso arrangements – a further illustration that talent has no limit...
